

BOOKii

Recording Stickers

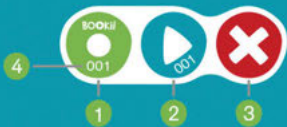

Touch,
record,

and listen to
BOOKii talk!

Instructions

It's so easy to do!

1. Just touch the symbol "Record" **1.** on the BOOKii sticker with the BOOKii audio pen. You'll then hear the announcement "Aufnahme jetzt". Now simply talk (or sing or laugh or play music) into the microphone on the audio pen!
2. You stop the recording by touching the symbol "Play" **2.** with the pen. The audio pen stops recording and plays your recording back to you, so you can review it. The recording is now saved on your BOOKii audio pen, and assigned to the chosen sticker.

You can listen to the recording as often as you like – just touch the symbol "Play" **2.** on the sticker!

And here's how to delete the recording:

1. Touch "Delete" **3.** with the audio pen. You'll hear the announcement "Löschen aktiv".
2. Touch the symbol "Play" **2.** on the sticker with the recording that you would like to delete. You'll then hear the announcement "Aufnahme löschen".
3. Touch the symbol "Record" **1.** on the sticker with the pen. You will then hear the announcement "Aufnahme gelöscht".

Your recording has been deleted.

Good to know:

- You can record onto BOOKii stickers and delete your recordings again as often as you like. The recordings are saved on your BOOKii audio pen and assigned to the relevant code number of the sticker.
- You can choose how long you want your recording to be! As long as there's free storage space left on the BOOKii audio pen, recording length is not limited.
- Your own recordings are saved exclusively on your BOOKii audio pen, and can only be replayed using your pen. No data will be transmitted from your BOOKii audio pen to other audio pens or systems.
- The BOOKii stickers have individual numbers ④. Each sticker has its own code number, which the pen recognizes. The BOOKii audio pen can save one recording per sticker and relevant code.
- The symbols "Record" ① and "Play" ② are permanently connected to each other. This is clear from the individual numbers printed on them ④. Recording is only possible when the symbols used have identical numbers.
- The "Delete" stickers ③ work with any recording sticker. They are not assigned to the code numbers of the stickers.

The stickers with the BOOKii logo have no recording function. They can be used, for instance, to mark a book into which you have placed recording stickers - that way, you can always tell which books contain your own recordings.

Important information:

Please do not paint or color over the stickers, or place any adhesive labels on them – otherwise the audio pen may no longer be able to read them.

The BOOKii recording stickers can only be used in combination with a BOOKii audio pen!

"Hey, look at the little boy!
He's playing with his dog.
Wow, the dog's faster than him..."

Not suitable for children under 3 years of age.
Choking hazard - small parts may be swallowed.

Quite simply creative:

BOOKii

Recording Stickers

BOOKii recording stickers are ideal for use with the BOOKii audio pen! With these recording stickers, there are no limits to kids' creativity: they can record funny sounds or their own music, they can tell their own stories, and then replay them over and over – it's a whole lot of fun!

Simply use the BOOKii recording stickers to make every book your very own BOOKii book!

- tell your own stories
- exchange messages
- give everything your own special sound

For sticking onto books, cards, toys and all other smooth surfaces.
